Education & Research

## 11. Internal Assessment

## 12. Industry Experts Invited

### Other comments to offer on the curricular aspects:

1. Give more written assignments to cover the important questions module wise study.
2. The syllabus is too vast and also there are certain subjects whose textbooks are not available in library.
3. Sessions should be conducted regarding the specialization subjects offered and should give brief information about it.
4. Reduce usage of PPT and more of experiential learning. Reduction in running through slides.
5. Provide more practical knowledge about the external industry factors.
6. Provide extracurricular activity.
