Relevance of curriculum in your Job

Need any change in curriculum and syllabi/Additional inputs to be provided

1. Please update the syllabus.
2. More Focus to be given to Corporate Exposure.
3. Curriculum should help people to overcome weakness and help them in Growth of their career.
4. More specialisation options.
5. Specialization need to be more in-depth.
6. Topics like HR analytics should be included in the syllabus, students should be groomed on technical skills.
7. Introduce brainstorming sessions on business plan once in a fortnight or a month where in you divide the class into smaller syndicates of 10-12 students to prepare business plans and one dedicated faculty to assess and moderate the methodology. This should be with full throttle, with HODs as observers and even the director to participate. Because ultimately we are going to become business leaders. There should be a considerable academic weightage to it.
8. We can involve lots of practical studies and involve internal fest.

Any other suggestions/comments

1. Focus more case studies.
2. I would like to suggest, please conduct more sessions on placements, how to build self-Confidence, how to crack interviews for the students.
3. More industry interaction required to prepare students well for the job.
4. Excellent Institute for study.
