ALUMNI FEEDBACK – 2021-2022

Total Responses : 31

Inputs to improve the overall Curriculum

- More hands-on Experience and more Practical knowledge about Industry and its units
- Include carrier oriented end to end trainings on ERP. E.g. Sales force, SAP functional SD, FICO, MM, CRM, Oracles finance
- please add digital marketing subject, it's very imp.
- The only suggestion is to rely and implementation of more possible practical level industry scenario
- Having more of industry interactions
- Increase in number of certification courses
- Emphasis to be given in building basics strong for the subjects which involves practical implications and illustrations in the first and second semesters as it will help students to become more competitiveness.
- Industry and on the job related experience to be given to students' form 3rd Semester
- More focus on placements
- To make it more relevant and updated based on current business environment and laws, use more of current business cases to prepare students for more real life experiences.
- Corporates/professionals be invited often for open sessions for practical insights to students. Industry visits /tours must form part of curriculum
- Include industry relevant courses like MS Excel, BI Tools
- Na
- Placement could have been better during our batch; I am sure it will be improved by now.
- Distributor Handling and dealers handling on hand experience Marketing student should get before entering corporate world
- Provide case studies on latest industry and Market trends
- More of practical case studies to be discussed with students.
- The communication training should be practical as most of our North Karnataka students are intelligent but are unable to explain themselves due to lack of communication skills.
- Overall the institute has given us the exact inputs and helped us to get the proper company

Please suggest any skill development activity that institute should focus on for enhancing the employability

- COMMUNICATION and Responsibility
- ERP
- Certification programs
- Making the students more job worthy by giving them the real picture of job market and what kind of job they would perform
- Focus of Business Analytics and use of emerging technologies in management
- Frequently holding active interactions with the industrial expertise and discussions amongst students in knowing how the latest market trends will enable them to focus on right selection of career path.
- More industry level practical Role-play and trainings from alumni can be arranged
- Mock interviews with the alumni
- How to handle work pressure with positive mindset? 2) Adaptability and good communication skills
- Excel Skills
- The knowledge of Financial Market a must. Regular updates on indexes, market movements, RBI policy rate movements etc.
- Ms Excel, SAS, BI Tools, communication skill
- Hiring courses to get the candidates more experienced in cracking interview
- Deeper Industrial knowledge can be given through more events and fests
- Microsoft excel basic and Advance, Power BI, Tableau and to give more important on Soft skills as well.
- More students should participate in other colleges management fests.
- Entrepreneurial and innovation, Negotiation skills, Business networking
- Group Discussion as it helps to build a personal courage.
- Social Activity is must needed for student.
