THEME OF THE CONFERENCE

The theme of the conference revolves around Corporate Governance and Corporate Social Responsibility which has been an emerging area of focus for both lawyer and managers. Corporate Governance is the set of processes, customs, policies, laws, and institutions affecting the way a corporation (or company) is directed, administered or controlled. India has witnessed several enactments – the Companies Act, 2013 and SEBI's listing obligations and disclosure requirements regulations have contributed significantly in strengthening governance norms and in increasing accountability by way of disclosures. For achieving the desired results, it is important that regulatory measures are modeled based on the practices and business environment in India. This conference will be looking into broad parameters like laws, regulations, obligations, disclosures and practices relating to Corporate Governance.

The Corporate Social Responsibility (CSR) movement began as a response to advocacy for corporations to play a role in ameliorating social problems due to their economic power and overarching presence in daily life. From charity to corporate philanthropy to mandatory CSR, this domain has witnessed a sea change posing and opportunities and challenges for organizations. The push for legalization came because voluntary CSR presented problems such as free-riding (companies taking advantage of benefits without actually spending), green washing posing as CSR, and false disclosures. Until such time that the law is made more precise and backed up by effective enforcement and penalties for non-compliance, it will not promote CSR or make companies engage more with stakeholders. This conference will be looking at these issues specifically and would try to have discussions to build up more comprehensive managerial innovations and legal initiatives to enhance the compliance of CSR in India. It would also focus on the challenges faced by companies due to the amendments in the Companies Act 2013 and best practices of companies adopting CSR.
